In China, both of the parents have their jobs. With the development of economy, people tend to pursue high quality living conditions. Most of the parents try their best to offer their children comfortable circumstances, but they seldom have time to stay with their children. In my point of view, no matter how busy they are, they should make the best use of their time to stay with their children. First, the love between children and adults will be improved by spending more time on their children. Children could feel parents' affection through the genial conversation and sharing their pleasure with them. Every time when parents take them to amusement park, help them to prepare their birthday parties, applaud for them when they are competing in the sports meeting, the time they spend with children will become treasure in their memories. Second, children need the direction from their parents. There are some wrong behaviors in our society such as dishonesty, corruption, violence and eroticism and so on. Children have weak resistance in defending this detrimental influence. In this case, parents' instructions seem to be very important to children's growth. Parents should sit down and talk with them about what they should do and should not do. In addition, if parents often spend time in staying with their children, adults' good behaviors will greatly influence their children. Here I do not deny that there are

some disadvantages in spending too much time on children. Some parents restrict their children, and give them little freedom to develop their interests. Therefore, I emphasize that parents should educate and instruct their children appropriately in their spare time apart from their busy works. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
